Re: Hilliards Creek Site, Gibbsboro, New Jersey
Administrative Order on Consent (AOC):
Index No. II CERCLA-02-99-2037

Dear Ms. Capichioni,

This letter is a follow-up to our June 27th meeting held here in the EPA offices regarding the above order. This letter serves as my response to the Removal Action Addendum report that was submitted on that day. In addition, it will serve to clarify the requirements for the Final Report which needs to be submitted in order to close out the above order.

I have reviewed the submitted Removal Action Addendum Kirkwood Lake Sampling Program report dated June of 2007 for the Hilliard Creek Site. I have no comments on the report and hereby approve it.

In addition, you had requested that I provide any comments on the 165 Kirkwood Road Removal Action Report that is dated October 29, 2003. I have re-reviewed that report and have no comments on that report either, so that report is also approved.

The only remaining requirement for the AOC is your submittal of the Final Report. In the meeting we discussed the requirements for the Final Report as listed in the AOC under section VI. ORDER, section 33, paragraph E. Final Report, Sections i. through ix. As stated in the meeting you do not need to submit any of the work plans or sampling results that you have already provided to EPA as per the AOC. You can refer to the individual report(s) in providing your response to the above-noted items.

In Sections i., ii., and iii. you can refer to any specific report that you may have already submitted, which would satisfy those requirements. For Section v., vi., and vii., if you have already submitted the information then you can refer to the specific document(s) that contain the requested information. If you have not provided that information then you can summarize the

quantities and materials that were removed off-site and list where their ultimate destination was. For Section iv. you can provide a good faith estimate of the costs for complying with this Order and for Section viii., you can provide a summary of the invoices and bills. You do not need to provide every invoice and bill. The summary can be done on a yearly basis with a listing of the costs for each given year. This can also be a good faith estimate.

This should provide you with clear instructions that you can use on preparing the Final Report, but if you have any additional questions or need further clarification feel free to email or call me at 732-321-6647. You are required to provide the EPA the Final Report within thirty five (35) business days from the date of this letter, which is September 7, 2007. Thank you for your anticipated cooperation.

Respectfully,

A handwritten signature in cursive script that reads "Bonnie L. Hriczko".
